

# Our International Director Leads the Way

“Although my education was in Business Administration, Toastmasters gave me the critical skills for career development.”

A dedicated Toastmaster for almost 19 years, our International Director Lauren Kelly has held a number of distinguished leadership positions within the organization. Toastmasters members elected her to the two-year volunteer term during its 75th annual International Convention in Washington DC. She credits Toastmasters for her professional success and explains, “I have learned to communicate for results, enhanced my listening skills, sharpened my thinking competence and developed leadership expertise.” Although her education is in business administration, she says her Toastmasters skills were critical to her career development. She will be the perfect guide for us on the road to success.

Lauren Kelly is a Project Manager in Information Systems specializing in healthcare insurance. She helps her business partners be successful by working collaboratively to change systems and processes. She works for United Behavioral Health through Technical Connections, Inc. in Santa Ana. Lauren earned the prestigious title of Project Manager Professional, PMP. She is a graduate of National University, Vista, California. She lives in Trabuco Canyon, Orange County, less than seven miles from World Headquarters.
